Revolutionary Vermeer AXIS Laser Guided Boring System is showcased at the Terence J. O’Sullivan Laborers’ Training Center

Our Mission

The Laborers’ Training Center provides Union Laborers comprehensive quality training emphasizing safety, skills and knowledge to increase their marketability and value to themselves, the Signatory Contractors and the Construction Industry.
Recently, Vermeer Pacific by RDO Equipment Co. partnered with the Laborers’ Training Center and donated their time and equipment which includes Vermeer’s latest technology – the AXIS Laser Guided Boring System. The AXIS unit is a revolutionary product that installs on-grade sewer lines from 8 to 15 inches in diameter with laser-guided precision. Distances to 400 feet and depths to 30 feet launched from a standard 8 foot x 12 foot manhole shore box make the unit versatile and productive for urban environments. Another unique feature of the AXIS Laser Guided Boring System is the 3400 CFM vacuum extraction of the cuttings from the bore casing. This process speeds up production and maintains a safe and clean worksite.

On April 12, 2010, Vermeer Pacific by RDO Equipment Co.’s drill team led by Jason DeWitt moved the package into the Laborers’ Training Center in San Ramon and spent the last two weeks operating and training on the unit. “Despite heavy rain and inclement weather, the team continued to work hard and the training went off without a hitch. We had excellent support from Jerome Williams, Instructor Supervisor, and his entire staff,” said Jason DeWitt, AXIS Specialist for Vermeer Pacific by RDO Equipment Co.

Ken Hugen, Vermeer Pacific by RDO Equipment Co. General Manager of Sales, said, “We are very pleased to have this technology operated by the Laborers Union. They have the right people with the necessary skills required to operate the unit in a highly safe and productive work environment.”

“The American-made Vermeer AXIS Guided Boring Machine is ready to help rebuild and revitalize America’s underground infrastructure. The accuracy of this machine will allow designers and agencies to eliminate costly lift stations within their sewer infrastructure, as well as capitalize on a greener footprint,” added DeWitt.
THE LABORERS’ TRAINING IN ACTION
In order to make travel in and out of the Silicon Valley more efficient, San Jose’s airport is currently undergoing a $1.3 billion modernization program. Old landmarks have been replaced by new buildings and roadways as each of the terminals get major upgrades. When completed, the Norman Y. Mineta San Jose International Airport will be a world class facility offering many state-of-the-art amenities once everything wraps up later this year. Working on this project for Hensel Phelps for the past year is apprentice Johnny Dela Rosa.

When we caught up with Johnny recently, he was busy testing the new baggage claim system to ensure everything was running smoothly. During his time at the airport, Johnny has gained experience in concrete work, saw cutting and demolition as well as learning what it’s like to work as part of a crew. When asked about his career goals, Johnny stated, “I have been preparing to be a journeyman since I started. The classes I took in San Ramon were very helpful; my instructors taught me a lot.” He added, “I really like this company. I hope they keep me forever.” We in the apprenticeship program wish Johnny continued success.

Con el fin de viajar de manera más eficiente dentro y fuera del Valle de Silicon, el aeropuerto de San José actualmente se encuentra en un programa de modernización de $1.3 billones de dólares. Al llevarse a cabo importantes actualizaciones a las terminales; edificios y monumentos antiguos han sido sustituidos por nuevos edificios y caminos. Una vez culminado el programa de modernización, el aeropuerto Norman Y. Mineta de San José será una instalación de clase mundial que ofrecerá servicios sumamente desarrollados y del más alto nivel, esto se espera para finales de este año. Desde el año pasado a estado trabajando en este proyecto para Hensel Phelps el aprendiz Johnny Dela Rosa.

Cuando recientemente nos pusimos al día con Johnny, él se encontraba muy ocupado poniendo a prueba el nuevo sistema para recoger equipaje; asegurándose que todo estuviera marchando de manera eficiente. Durante el tiempo que ha pasado en el aeropuerto, Johnny ha adquirido experiencia en obra de hormigón, aserrado y demolición, así como también ha aprendido lo que es trabajar como parte de un equipo. Cuando se le preguntó acerca de las metas en su carrera, Johnny declaró, “He estado preparándome para ser un Obrero desde que empecé. Las clases que tomé en San Ramón fueron muy útiles, mis instructores me enseñaron mucho. “Y añadió:” Me gusta mucho esta empresa. Espero ser parte de ella para siempre. “Nosotros, en el programa de aprendizaje le deseamos a Johnny éxito continuo.
The Laborers’ Apprenticeship Program participates in the Annual Construction Industry Job Fair in Fresno, California.

Victor Dillon, Field Coordinator for the Laborers’ Apprenticeship Program, demonstrates Torch Cutting Techniques.
Q: When am I eligible for health benefits?
A: Your eligibility for health benefits is effective when your employer has reported 441 worked hours to the Northern California Laborers’ Trust Funds.

Q: If I receive PCE (Previous Construction Experience) credit will it count towards my health benefits?
A: No, hours must be accrued by working for a signatory contractor once you are a member of the Union.

Q: If I have questions about my health benefits such as eligibility or a statement I received, whom do I contact?
A: For inquiries about your health benefits you may contact the Northern California Laborers’ Trust Funds at 1-800-244-4530. Ask for the Health and Welfare Department.

Q: When am I eligible for my vacation check?
A: Your employer will start making contributions to your vacation account once you advance to 4th period (80%). In order to receive an upgrade to 80% and full fringes (including your vacation check) you must first meet all of the following requirements.

- 1500 OJT Hours.
- Pay the remainder of your initiation to your local.
- Complete either the follow-up class or the Hazardous Waste class.

P: ¿Cuándo soy elegible para los beneficios de salud?
R: Su elegibilidad para sus beneficios de salud entran en efecto cuándo su Empleador/Contratista haya reportado 441 horas trabajadas al Fondo de Fideicomiso de los Obreros del Norte de California.

P: ¿Si recibo crédito de PCE (experiencia previa en la construcción) se cuenta hacia mis beneficios de salud?
R: No, las horas deben ser acumuladas trabajando para un contratista signatario una vez que usted sea un miembro de la Unión.

P: ¿Si tengo preguntas sobre mis beneficios de salud tales como elegibilidad o una declaración recibida, a quién puedo contactar?
R: Para preguntas sobre sus beneficios de salud usted puede entrar en contacto con los Fondos Fideicomiso de los Obreros del Norte de California al 1-800-244-4530. Pregunte por el departamento de la salud y del bienestar.

P: ¿Cuándo soy elegible para recibir mi cheque de vacaciones?
R: Su empleador comenzará a hacer contribuciones a su cuenta de las vacaciones una vez que usted avance al cuarto período (el 80%). Para recibir una actualización hasta el 80% y beneficios (incluyendo su cheque de las vacaciones) usted debe primero cumplir con todos los siguientes requisitos.

- 1500 Horas de OJT (capacitación en el trabajo)
- Pagar a su Local el resto de su iniciación
- Complete la clase del Modulo 2 de Aprendizaje o la clase de los desechos peligrosos.

P: ¿Qué pasa si trabajo más de 1500 horas pero no he pagado mi iniciación completa ni he tomado la clase del Modulo 2 o de los desechos peligrosos? ¿Conseguiré “pago retroactivo” cuándo lo haga?
R: No, su aumento y adelanto serán efectivos cuando usted cumpla con todos los requisitos y su aumento será procesado.

** IMPORTANT REMINDER! **
All trainees/apprentices are expected to be on time for all courses and to be suitably attired with work clothing and work boots. **NO** shorts, tank tops, or tennis shoes will be allowed in class or in the dining area. **NO** head gear will be allowed in the dining room. Registration for all courses is from 6:00am to 7:00am the first day of class. After the first day, classes will begin at 6:30am. Classes end at 3:00pm. Those arriving late or without proper attire will **NOT** be accepted.

**RECORDATORIO IMPORTANTE!**
Se les requiere a todos los estudiantes y aprendices el llegar a tiempo a todos los cursos y venir vestidos apropiadamente con ropa y botas de trabajo. Pantalones cortos, camisetas sin manga, o zapatos de tenis **NO** serán permitidos, en ninguna de las clases o en el comedor. **NO** es permitido entrar al comedor con sombrero. La registración para todos los cursos es de las 6:00am a 7:00am de la mañana. Después del primer día de las clases, las clases empiezan puntualmente a las 6:30 de la mañana y terminan a las 3:00 de la tarde. Las personas que lleguen tarde, o sin ropa adecuada **NO** serán aceptadas.
Training Program Overview

The Training Program is designed to provide basic, as well as advanced, instruction in a variety of construction skills.

Trainees learn from instructors who have many years of experience in the construction industry. Classes are equipped with modern equipment and tools, and strong emphasis is placed on operation and safety.

Classes range from one to six weeks. A typical construction course format entails approximately 45 minutes of classroom instruction per day with the remaining time spent on “hands-on” training. All training is done under the direct supervision of a certified instructor.

Want to Take a Class at the Training Center?

Contact your Local Union Office or inquire while paying your dues or registering at roll call. Tell them which course you are interested in taking. They will then contact the Training Center, which will review your work status and course availability. The Training Center will notify the Local Union Office which will contact you about the availability of the particular course.

Visión general del Programa de Capacitación

El Programa de Capacitación está diseñado para proveer instrucción básica al igual que instrucción avanzada en una gran variedad de habilidades en la construcción.

Los estudiantes reciben la enseñanza de instructores quienes tienen muchos años de experiencia en la industria de la construcción. Los cursos están equipados con maquinaria y herramienta moderna, y se enfocan de manera firme en el manejo y la seguridad.

Los cursos varían de una a seis semanas. El formato típico de un curso de construcción, conlleva aproximadamente 45 minutos de instrucción al día en el salón de clase y el tiempo restante se dedica a la práctica. Toda la instrucción se efectúa bajo la dirección de un supervisor certificado.

Quiere tomar una clase en el Centro de Capacitación?

Llame por teléfono a su Oficina de la Unión Local o pregunte cuándo vaya a pagar su cuota mensual o cuándo se registre para el pase de lista. Dígale a los representantes que curso le interesa tomar. Ellos se pondrán en contacto con el Centro de Capacitación, permitiendo así la verificación de su estado de empleo y la disponibilidad de cursos. El Centro de Capacitación notificará a la Oficina de la Unión Local, y enseguida le harán saber acerca de la disponibilidad del curso en particular.
Every person determines their own fortune, and that fortune, good or bad, depends on the individual's acceptance of personal responsibility.

At a young age, we are taught to assume responsibilities. (“Look before you cross the street... playing with matches is dangerous... be home before dark...”). Even today, as adults, we still learn and decide whether to accept certain obligations. Young or old, we make individual choices.

When responsibilities are shunned or rejected, someone must cope with the results. Police officers, judges, juvenile officers, and social workers respond to most of these rejections in our society. In safety, doctors, nurses, and funeral directors deal with the consequences of rejected responsibilities.

By accepting and practicing safety responsibility, you ensure your future both at home and on the job. You do the same for your fellow worker as well, because socially and morally you are responsible for preventing accidents to others as well.

If you see an unsafe act, do something about it - point it out so others are aware and can avoid future mistakes.

Point out to other employees when safety is not being practiced. After all, it is their responsibility to prevent an accident to you as well.

Use good work habits - don’t be impulsive, and remember that hurrying can hurt.

Develop the attitude that “if I do something wrong, I’m taking the chance of getting hurt”. Then do the job the right way. If you are a supervisor, help new employees learn that safety is the rule, not the exception. Teach them proper safety responsibility before you turn them loose.

Practice leaving personal problems and emotional stress away from the job. Remember, that accidents do not just happen - they are caused. Correct little mistakes before they grow into permanent bad habits. Safety responsibility is up to you.

PRACTICE SAFETY!

“Do not learn it through Accidental Experience”.

Cada persona determina su propia fortuna, y esa fortuna, buena o mala, depende de como el individuo acepta responsabilidad personal.

A una temprana edad nos enseñaron a asumir responsabilidades (“Mira antes de cruzar la calle. El jugar con fósforos es peligroso. Está en la casa antes que oscurezca...”). Todavía hoy, como adultos, aprendemos y decidimos si aceptamos ciertas obligaciones. Jóvenes o mayores, tomamos opciones individuales.

Cuando se suye o se rechazan responsabilidades, alguien debe enfrentarse a los resultados. Oficiales de policía, jueces, oficiales juveniles, y trabajadores sociales son los que responden a la mayor parte de estos rechazos en nuestra sociedad. En cuanto a nuestra seguridad en el trabajo, doctores, enfermeras, y directores de entierro son los que tratan con las consecuencias de responsabilidades que son rechazadas.

El aceptar la responsabilidad por la seguridad en el trabajo, y el poner en práctica reglas de seguridad, aseguran su futuro en casa y en el trabajo. Haga lo mismo por sus compañeros de trabajo, porque socialmente y moralmente usted es responsable por prevenir accidentes a otros también.

Sé que un acto que puede causar un accidente haga algo – señálelo para que otros se enteren y puedan evitar errores en el futuro.

Haga saber a otros empleados cuando no se practica la seguridad. Después de todo es de ellos la responsabilidad de prevenir que no le pase un accidente a usted tampoco.

Use buenos hábitos de trabajo - no sea impulso, y recuerde que andar de prisa puede herir.

Desarrolle la actitud que “si hago algo mal, tomó el riesgo de lastimarme.” Haga el trabajo de manera correcta y segura.

Si es supervisor ayude a los empleados nuevos a que aprendan que la seguridad es la regla, y no la excepción. Enséñele responsabilidad de seguridad propia antes de dejarlo solos.

Practique dejar problemas personales y tensión emocional lejos del trabajo. Recuerde, que los accidentes no sólo pasan- se causan. Comía equivocaciones pequeñas antes que crezcan a malos hábitos permanentes. Responsabilidad de seguridad es de usted.

¡PRACTIQUE SEGURIDAD! -

“No la aprenda por Experiencia con Accidentes”.

Commitment  Integrity  Quality  Teamwork  Balance
ATTENTION ALL TRAINEES:

Due to the current financial condition of the Laborers Training and Retraining Trust Fund for Northern California, the trustees have had to take some measures in order to bring costs in line with projected income. Several conditions, both economic and operational, have necessitated that we make the following changes to our training program:

1. Effective October 16, 2009, the “Stipend Allowance” was temporarily suspended. The “Travel Allowance” will remain the same until further notice.

2. Effective February 19, 2010, the West-Sacramento Training Facility was closed.

3. No hours credit for Health & Welfare or Pension will be given to any trainee attending classes at the San Ramon Training Center for any class starting on or after March 1, 2010.

4. Effective May 1, 2010, the Food and Lodging services ceased operations at the Training Center in San Ramon.

We realize the above will create some hardship for trainees. However, in the current economic climate, the changes were necessary and are a first step in insuring the ongoing viability of the Training Fund.

ANUNCIOS

ATENCIÓN TODOS LOS ALUMNOS:

Debido a la condición financiera actual del Fondo Fideicomiso De Los Obreros Del Norte De California, los fiduciarios han tenido que tomar algunas medidas con el fin de bajar los costos y ponerlos en línea con los ingresos proyectados. Varias condiciones, tanto económicas como operativas, han requerido que hagamos los siguientes cambios en nuestro programa de capacitación:

2. El Centro de Capacitación de West Sacramento se cerró a partir del 19 de Febrero del 2010.

3. No se acreditarán horas para los servicios de Salud y Bienestar Social o para la Pensión. Los alumnos que asistan a clases en el Centro de Capacitación de San Ramon, no recibirán el crédito de horas por cualquier clase que de comienzo a partir de Marzo 1 del 2010.

4. A partir de Mayo 1 del 2010, los servicios de Alojamiento y Alimentación dejaron de operar en el Centro de Capacitación en San Ramón.

Nos damos cuenta que estos cambios van a crear algunas dificultades para los alumnos. Sin embargo, en el clima económico actual, los cambios han sido necesarios y son un primer paso para asegurar la viabilidad en curso del Fondo de Capacitación.

Attention Employers and Union Offices!

The Mobile Training Unit can bring training directly to you!

The Northern California Laborers’ Training Center offers off-site/mobile training for those Employers/Union Offices who would prefer to train their employees at their job sites/offsite location.

El Centro de Capacitación de Obreros del Norte de California ofrece capacitación móvil para los Contratistas/Oficinas Sindicales que prefieren que el entrenamiento se lleve a cabo en el sitio de trabajo/afuera del centro.

Let Us Know How we can fulfill your Organization’s Training Requirements!

Déjenos Saber como podemos satisfacer los requisitos de Capacitación de su Organización!

Contact: Instructor Supervisor, Jerome Williams

Tel - (925) 828-2513  :  jwilliams@norcalaborers.org
From Northbound 680, take the ALCOSTA BLVD. exit, turn left onto San Ramon Valley Blvd. Turn right onto Westside Drive. The Training Center is located on the left.

From Southbound 680, take the ALCOSTA BLVD. exit, turn left onto Alcosta Blvd. Stay in the straight-ahead lane to go onto Westside Drive and look on your left for the large sign and gate leading to the Training Center. Proceed up the hill to the Administration building (on the left).

De la autopista 680 de la Ruta Norte, tome la salida ALCOSTA BLVD., gire a la izquierda sobre San Ramon Valley Boulevard. Gire a la derecha sobre Westside Drive. El Centro de Capacitación se encuentra a mano izquierda.

De la autopista 680 de la Ruta Sur, tome la salida ALCOSTA BLVD., gire a la izquierda sobre Alcosta Blvd. Permanezca en el camino que marcha en línea recta sobre Westside Drive y ver a su izquierda para encontrar el letrero y la puerta principal al Centro de Capacitación. Proceda hasta la colina a la Oficina de Administración (a la izquierda).
